SEN. LANDSKE: BILLS I SUPPORTED THIS SESSION

✓ **INDEPENDENT RESEARCH:** In an effort to make the legislative branch less dependent on lobbyists for research on public policy topics, Senate Enrolled Act 84 allows lawmakers and the non-partisan Legislative Services Agency to access state-funded research resources at Indiana colleges and universities. Feasibility of establishing a research and policy development division will also be explored.

✓ **AG ASSESSMENTS:** Senate Enrolled Act 396 uses an adjusted rolling average that eliminates the highest assessed value over a six-year period. Known by economists as the “Modified Olympic Average” technique, the model should provide farmers and local governments more stable agricultural property assessments and be more representative of true market value.

✓ **Rx ABUSE:** Lawmakers supported a bill aimed at combating prescription drug abuse in Indiana. Senate Enrolled Act 356 expands the data collected by Indiana’s prescription monitoring program (INSPECT) and allows INSPECT to release information on prescribers and patients to the state toxicologist, Medicaid fraud investigators and substance abuse assistance programs. This change should help better identify problem prescribers and ‘doctor shopper’ patients in an effort to reduce prescription drug abuse.

✓ **VOTING ACCESSIBILITY:** House Enrolled Act 1109 makes voting easier for those with disabilities and military personnel serving our country overseas. The new law ensures disabled voters have the same access to private, independent voting methods when casting ballots early or absentee as they do when voting on Election Day. It also provides more options for military personnel to cast a vote when serving overseas.

SERVING SENATE DISTRICT 6 TAXPAYERS

JOBS: LAWMAKERS FIGHT NEW SPENDING, NEW TAXES; PASS PRO-JOBS INITIATIVES TO HELP HOOSIERS

With little time and no money, lawmakers worked this short session to maintain Indiana's pro-job climate of low taxes and limited regulation.

Senators kept a close, careful eye on proposed legislation and amendments to avoid new state expenditures and government intervention that would have raised taxes and imposed red tape during already hard times for Indiana's workforce and employers.

Gov. Mitch Daniels, with the support of Senate Republicans, rightly reacted to tumbling state revenues by cutting government spending, flat-lining state payrolls and freezing all but essential hiring. To date, state bureaucracies have cut 20 percent from operating budgets. Reluctantly, higher education funding has been reduced 6 percent and public K-12 schools – nearly half of the state budget – have been asked to find 3 percent in new cost savings and efficiencies to help save classroom teachers' jobs.

Senators also successfully delayed \$400 million in new unem-

ployment insurance premiums from going into effect in 2010. By avoiding premium increases, lawmakers hope employers large and small will be in stronger positions to retain or add employees.

Lawmakers also passed initiatives to help Hoosiers recover from the national recession:

- **New Employer Tax Credits** will be offered to businesses relocating or incorporating in Indiana. Qualified businesses must hire 10 or more full-time employees, not including owners.

- **Small Business Tax Credits** will be expanded to make small employers with fewer than 35 workers eligible for Economic Development for a Growing Economy (EDGE) credits.

- **Small Business Ombudsman** will be an advocate for small employers with state agencies, helping navigate regulations, streamline paperwork and coordinate due dates. Also, the ombudsman will monitor outdated, ineffective and overly burdensome reporting requests and red tape.

- **H.I.R.E.** (Helping Indiana Re-start Employment) initiative will offer tax incentives to employers who hire and train unemployed and underemployed Hoosiers.

ETHICS REFORMS

Lawmakers proactively passed a comprehensive ethics reform package aimed at improving transparency in government and providing greater accountability over state leaders.

House Enrolled Act 1001 creates a one-year cooling off period before a retired legislator could become a lobbyist and requires uniform reporting by all lobbyists. The measure further reduces the threshold for reported one-time lobbyist expenses from \$100 to \$50 a day and drops the annual total from \$500 to

\$250.

Reforms include expanding registration and reporting requirements for legislative liaisons of state agencies and universities. The law prohibits statewide officeholders, other than the governor, from appearing or using their name in advertisements funded with state-appropriated dollars, unless approved by a budgetary oversight committee. Also, statewide officeholders and statewide candidates are barred from campaign fundraising during budget-writing sessions.

EDUCATION

This session, lawmakers provided schools more financial flexibility and local control. We also took steps to address social promotion of students not reading at grade level.

Under House Enrolled Act 1367, schools can claim up to 5 percent of funding normally dedicated to capital projects and use it for instructional purposes. Schools agreeing to pay freezes for staff, excluding those for years of experience and new degrees, can use up to 10 percent. By allowing access to these re-

sources, money will be available to help schools prevent teacher layoffs and preserve instructional programs.

To avoid additional software costs and provide more local control, Senate Enrolled Act 309 gives local schools the option to continue budgeting on the calendar year or change to the state's fiscal year, July 1 – June 30.

HEA 1367 also requires a new statewide plan to improve reading performance among grade-schoolers. Input will be sought through public hearings.
